OBJECTIVE

Enthusiastic Software Developer with 2 years of professional experience in **Angular, ASP.NET Core Web API, and SQL** for building enterprise-level **HRMS solutions**. I am skilled in designing and developing scalable applications with clean architecture and strong database integration. Previously experienced in **MERN stack**, bringing full-stack adaptability and strong problem-solving skills. Seeking opportunities to contribute to impactful projects while advancing technical expertise.

TECHNICAL SKILLS

- **Languages: C#, JavaScript (ES6+), TypeScript, SQL**
- **Frontend: Angular 12, HTML5, CSS3, Bootstrap, Tailwind CSS, Redux**
- **Backend: ASP.NET Core Web API, Node.js, Express.js, RESTful APIs, MVC**
- **Database: SQL Server, MongoDB**
- **Version Control: Git, GitHub**
- **Tools: Visual Studio, VS Code, Postman, NPM, Yarn**
- **Hosting & Deployment: IIS, Netlify, Render**

PROFESSIONAL EXPERIENCE

Junior Software Engineer (Full-Stack .NET Developer)
Recom Consulting Ltd. | August 2024 – Present | Dhaka, Bangladesh

Developed and maintained HRM modules including Employee Management, Lunch Request, Leave Management, Attendance Management, Appraisal, and Survey.

- Built and consumed ASP.NET Core Web APIs for seamless integration with Angular 12 frontend.
- Designed SQL Server queries, stored procedures, and views to automate and optimize HR processes.
- Implemented Ng Bootstrap models, reusable components, and responsive UI for better user experience.
- Improved overall system performance with optimized API calls and database tuning.
- Collaborated in an Agile team environment to deliver high-quality features on time.

COMPANY PROJECTS

HRM Lunch Request System

Developed Angular components for managing employees and guest lunch requests.

Integrated with .NET Core Web API for real-time CRUD operations.

Applied guest count updates, simultaneous employee/guest deletions, and modal-based UI interactions.

HRM Leave Management System

Designed and developed leave request, approval, and tracking system.

Built APIs in .NET Core to handle leave application workflows.

Used SQL stored procedures to calculate available leave balances dynamically.

Integrated with Angular frontend to display employee leave records and approval history.

HRM Attendance Management System

Developed an interactive Angular component for employee attendance tracking with location-based and system attendance options.

Integrated .NET Core Web API to record attendance logs and validate geo-location data.

Created SQL stored procedures to fetch, filter, and analyze attendance reports efficiently.

Designed responsive UI with toggle-based views and real-time status updates.

Exit Interview Management

Designed Angular component for template/question management.

Executed dynamic views: list view, detail view, and setup view.

Merged with backend API for saving, editing, and deleting interview templates.

ADDITIONAL PROJECTS (MERN STACK)

Mern-Stack Ecommerce Website || live link GitHub link

- Developed a responsive e-commerce platform user React.js
- Implement product category, shopping cart functionality and user authentication
- Ensure a Seamless and engaging user experience through intuitive design

Mern-Stack Blog app || live link GitHub link

- Create blog and using user authentication
- Use Redux toolkit

- Implement Crud operation this Blog app

IMDB Clone app || live link GitHub link

- Using Next.js make this site
- Top Rate and popular movie see here
- Using Node Express.js, React.js and Axios Api
-

Front-end Ticktacktoo-game

- Create a Ticktacktoo game using React.js
- Implement responsive design form optimal viewing on various devices
- You and your friend can play this game

EDUCATION

B.SC In Computer Science & Engineering (CSE)

Shaikh Burhanuddin Post Graduate College
2017-2022

Higher Secondary Certificate (HSC)

Hazi Misir Ali University College
Group: Science
Passing-year 2017

Secondary School Certificate (SSC)

Hazi Pandey Ali High School
Group: Science
Passing-year 2015

Soft Skills

- Strong Problem – Solving abilities (**Bee crowd: 127 Problem Solve)**
- Excellent communication skills
- Quick learner and adaptable to new technologies
- Team player with a positive attitude

Certifications

Learning & Earning Development Project (LEDP) || Digital Marketing (2021)
AI Agent Development Bootcamp for Programmers (Ostad) || AI Agent Development (2025)
